September 19, 1978

Memo to: Quinlan J. Shea

From: Harold Weisberg

Re: JFK assassination appeal

I have previously cited the case of the person of many names, including Nancy Perrin and Nancy Perrin Rich, as typical of the FBI's withholding of the public domain.

On this, I believe my appeal included the fact the she had been a Warren Commission witness who boasted of her exploits.

Attached is a copy of a Garry Wills column which discloses just how public the information the FBI withholds is. I have marked two relevant paragraphs.
